Get ready to win with the CHERRY MC 9620 FPS Gaming mouse. It adapts to your precision, speed and ergonomic requirements. The CHERRY Utility software can be downloaded and allows you to set the resolution up to 12,000 DPI, regulate your speed up to 250 ips / 50 g or assign mouse functions and illuminate it to your own requirements.

The RGB illumination with logo projection with the complete color spectrum of 16.8 million colors can also be easily set with this. The DPI button glows according to your DPI setting for ease of orientation. The simultaneous analog and digital control progressively regulates functions in a similar way to a controller.

Three weights can be inserted, and the palm-rest can be extended in five stages, meaning it can be adapted to your ergonomic requirements and it can be moved smoothly on the extra-large gliding surface. The mouse fits perfectly in your hand thanks to high-quality materials and surfaces, created in a modern manufacturing process and guarantees many hours of playing pleasure. Made for winners!

FUNCTION AND PERFORMANCE

→ Flexible, customizable gaming mouse with 9 buttons

→ Simultaneous analog and digital signal processing for versatile controller like functions
